THE RIGHT CONNECTION

CMPS600

The CMPS600 base unit is an A3 size auxiliary plotter and has to be connected to a computer via a parallel port or USB connection. It is a high speed plotting device and enables plotting of different markers in one setting. The marker fixture and the plotter pen have to be inserted before commencing the plotting operation. The base unit is primarily controlled through a computer with the help of CMPS software.

DIMENSIONS	
Length	690 mm
Width	480 mm
Height	155 mm

PRODUCT SPECIFICATION	
Type of Plotter	Flatbed Plotter
Plotting speed with Pen	up to 40 mm/s
Plotter Pen	Special plotter pens with HP fixing
Addressable resolution	0.01 mm
Repeat accuracy	0.05 mm
PC interface	USB Port
Power Supply Input Voltage	100-240V AC / 50-60Hz
Power Supply Input Current	0.7 A max.
Power Supply Output Voltage	24 V
Power Supply Output Current	1.25 A max.
