INSTALLATION PROCEDURE & SAFETY INSTRUCTIONS

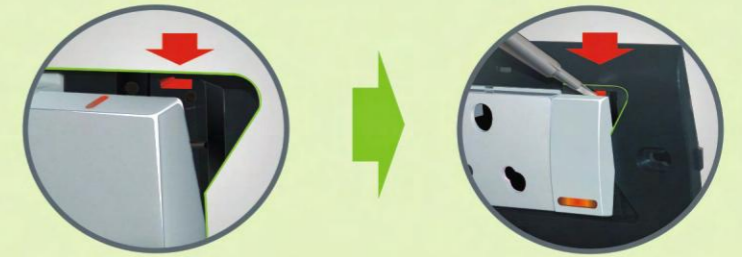

Ensure the mains are switched off. Double check current flow by using a quality tester. Tighten terminal screws properly to avoid loose termination. Do not over tighten the screws on the Mounting Plate as it may damage the modular unit. Retain protective polythene cover until wall finishes are completed. It is recommended the installation be carried out by a certified Electrician.

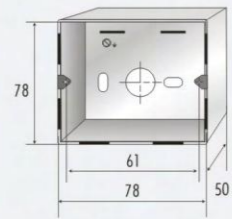

MOUNTING PROCEDURE

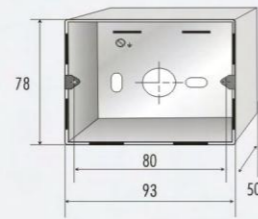

Dismantling
Locate the special 'Groove' at the right hand top corner. Insert flat head of a suitable Screw Driver into it and gently scoop out for removal
